**TRAINING THE TRAINER**

**THE FUTURE IS IN YOUR HANDS**

# **NERVA EDUCATION FOUNDATION**

Good quality Education is the key to the progress of any nation and an absolute single most factor in bringing about peace in the world. To bring about this change we need to equip our teachers with the necessary tools and mindset targeted towards the betterment of their class which will lead to the much needed change in humanity that we all seek.

Nerva Education Foundation has been conducting intensive training programmes for teachers, Principals and school management alike for several years. The training programmes will enhance the skills of the teachers, help them prepare a curriculum, effectively manage a class and maintain their own mental health. Along with these we also conduct training on soft skills like grooming and etiquette, handling social media presence and much more. The latest training programmes are focussed on National Education Policy 2020 and National Curriculum Framework, which is widely implemented in many schools.
